Professional Experience

Business Development Executive | GrowthPro Africa, Abuja

Apr 2025 – Jul 2025

- Tracked lead generation and conversion metrics and reported performance insights to management.

- Supported data-informed sales and outreach strategies to improve enrollment and revenue.
- Conducted market and competitor analysis to guide growth and partnership decisions.

Data Analyst | Wells-Hub Technology Company, Abuja

May 2024 – Dec 2024

- Analyzed large datasets on user behavior and product performance, contributing to a 12% improvement in customer retention.
- Built and maintained automated KPI dashboards, reducing manual reporting time by 25%.
- Cleaned, transformed and validated data with SQL and Python to support executive reporting.
- Worked with product and engineering teams on feature optimization and performance tracking.
- Ran root-cause analysis on operational inefficiencies and recommended data-driven fixes.

Development Control Officer (NYSC) | Federal Housing Authority, Abuja

Oct 2023 – Aug 2024

- Reviewed applications and carried out site inspections to enforce planning compliance.
- Maintained structured Excel records of permits, inspections and approvals.
- Prepared inspection and compliance reports for senior planning officers.

Building Construction Intern | S.NDC Design & Construction, Lagos

Mar 2022 – Nov 2022

- Assisted with site supervision, quality control and project documentation.
- Maintained project logs and milestone reports; supported design coordination in AutoCAD.

Projects

EnigmaStock: Inventory, Sales and Business Management System | Founder, Enigmatech Solutions

github.com/enigmatechsolution/EnigmaStock

Web application for retail and distribution businesses to manage products, stock, sales, customers and invoices from one platform. Built with ASP.NET Core MVC, C#, Entity Framework Core and SQL Server.

- Designed a sales workflow with controlled Pending, Completed and Cancelled states, where completed sales are locked from editing or cancellation to protect record integrity.
- Built product and inventory management covering SKU, cost price, selling price, quantity and reorder levels, with Stock In and Stock Out records and low-stock detection.
- Generated printable invoices (invoice number, customer, payment method, line items, grand total) with totals calculated automatically and PDF output through the browser.
- Implemented authentication and role-based authorization with ASP.NET Core Identity, restricting administrative actions from staff users.
- Delivered a dashboard with Chart.js visualizations of products, suppliers, purchases, sales, recent sales, revenue and low-stock items.
- Modeled relational data (products, categories, sales, sale items, suppliers, purchases, stock movements) with EF Core migrations; managed the codebase on GitHub.

Education and Certifications

- B.Tech, Urban and Regional Planning | Federal University of Technology, Minna | June 2023
- Data Analysis and Visualization | Cruz Technologies | April 2024 (Excel, SQL, Power BI, Python)
- Data, Data Everywhere | Coursera | Aug 2024
- Data Analysis and Visualization | AptLearn | Jul 2024
- Project Management Essentials | Cornerstone | Jun 2024
